

AGENDA

National Regional Sediment Management Workshop

*Marriott Waikiki, Honolulu, Hawaii
July 13-15, 2004*

Tuesday July 13

7:30-8:00 Registration and Continental Breakfast

Welcome!

8:00-8:20	Welcome to the Pacific Ocean Division	BG Robert Davis, POD
8:20-8:40	Overview of the National RSM Workshop; Introductions	Jack Davis, CHL
8:40-9:10	Goals for Workshop	Jack Davis, CHL
9:10-9:30	HQ Perspective on National RSM Program	Lynn Martin, IWR
9:30-10:00	Break	

Guidance from Demonstration Projects, I

10:00-10:20	Guidance for Developing a Project Management Plan (PMP) for RSM	Linda Lillycrop , SAM
10:20-10:30	Discussion	
10:30-10:50	Bringing RSM into Standard Business Practice	Monica Chasten , NAP
10:50-11:00	Discussion	
11:00-11:20	Developing a Model Division for RSM in the 2012 Learning Organization	Kaiser Edmond, SAD
11:20-11:30	Discussion	
11:30-11:50	Implementation of a Project Delivery Team and Life-Cycle Benefits	Jeff Waters , SWG
11:50-12:00	Discussion	
12:00-13:30	Lunch	

Guidance from Demonstration Projects, II

13:30-13:50	Innovative Methods for Getting Littoral Materials Back into the System	Dan Haubner , SAJ
13:50-14:00	Discussion	
14:00-14:20	Environmental Restoration and Regional Sediment Management Activities	Steve Couch & Diane Rahoy , NAN

- 14:20-14:30 Discussion
- 14:30-14:50 Dredging Management Alternatives to DMMP Development for Michigan City, IN [Phil Ross, LRE](#)
- 14:50-15:00 Discussion
- 15:00-15:30 Break**
- 15:30-15:50 Differential Cost Benefits Analysis GIS Decision Support Tool – Pilot Study for Ventura Harbor [Susie Ming, SPL](#)
- 15:50-16:00 Discussion
- 16:00-16:20 Policy and Procedures of Regional Sediment Management [Doris McKillip, NWP](#)
- 16:20-16:30 Discussion
- 16:30 Adjourn

Wednesday July 14

- 7:30-8:00 Coffee and Continental Breakfast

RSM Tools and Technology

- 8:00-8:30 Coastal Mapping Program & Products and eCoastal [Linda Lillycrop & Rose Dopsovic, SAM](#)
- 8:30-9:00 System-Wide Water Resources Program [Steve Ashby, EL](#)

Round-Table Working Groups, I

- 9:00-9:20 Overview and Goals for Working Groups [Ty Wamsley, CHL](#)
- 9:20-10:30 Break into 4 Working Groups (see **Breakout Topics**, Attachment 1)
- 10:00 Working Break**
- 10:30-11:30 Presentations from Each Group (10 min each, with 5 min for discussion)

- 11:30-13:00 Lunch**

Round-Table Working Groups, II

- 13:00-14:00 Break into 4 Working Groups
- 14:00-15:00 Presentations from Each Group (10 min each, with 5 min for discussion)
- 15:00-15:30 Break**

Round-Table Working Groups, III

- 15:30-16:30 Break into 4 Working Groups
- 16:30-17:30 Presentations from Each Group (10 min each, with 5 min for discussion)
- 17:30-17:45 Brief Overview of Field Trip and Logistics Tom Smith, POH
Stan Boc, CHL
- 17:45 Adjourn**

Thursday July 15

Field Trip, Oahu RSM Site

(Spouses are invited)

Bring sunscreen, hats, water; wear casual attire

Attachment 1: Breakout Topics

Breakout Session I

1: How should a District develop a Project Delivery Team (PDT) for RSM? (Facilitator – Susie Ming)

Workshop product: Guidance statement.

Program product: Technical note.

2: How should a District develop a Project Management Plan (PMP) for RSM? (Facilitator – Linda Lillycrop)

Workshop product: Guidance statement.

Program product: Technical note.

3: How can a District determine and assess regional rather than project-related benefits? (Facilitator – Dan Haubner)

Workshop product: Needs Assessment - list of capabilities an economic model must have to be an effective RSM tool.

Program product: Tool to assess regional costs/benefits.

4: How can a District fund RSM after the RSM Demo project is completed? (Facilitator – Kaiser Edmond)

Workshop product: List of ideas, experiences, examples, procedures, mechanisms, etc.

Program product: Technical note on funding (see also topic 7).

Breakout Session II

5: GIS Issues I: How can a District work with data that is not compatible with the eCoastal GIS system? (Facilitator – Jeff Waters)

Workshop product: Needs Assessment - list of compatibility issues, available tools/methods to overcome them, and other capabilities needed.

Program product: Technical note and/or data conversion toolbox.

6: How can we make RSM Standard Operating Procedure in the Districts? (Facilitator: Monica Chasten)

Workshop product: List of organizational/procedural barriers to RSM implementation and ideas/experiences for overcoming these barriers.

Program product: White paper.

7: How can a District leverage funds? (Facilitator: Phil Ross)

Workshop product: List of ideas, experiences, examples, procedures, mechanisms, etc.

Program product: Technical note on funding (see also topic 4).

8: How do you build a regional study out of a few (or many) smaller project-level studies? (Facilitator: George Domurat)

Workshop product: List of ideas, experiences, examples, procedures, mechanisms, organizational barriers, etc.

Program product: Technical note and/or white paper.

Breakout Session III

9: GIS Issues II: What are the benefits of a corporate GIS and how can they be quantified and demonstrated within a District/Division office? (Facilitator: Rose Dopsovic)

Workshop product: List of benefits and ideas, experiences, examples of how those benefits were/can be quantified and communicated.

Program product: Technical note.

10: How are Districts working with the least cost environmentally acceptable federal standard? (Facilitator: Doris McKillip)

Workshop product: Guidance statement.

Program product: Technical note.

11: How can a District change the conventional mind-set to consider that projects may collectively provide system-wide resources**, rather than one project having to provide all resources? (Facilitator: Diane Rahoy)

Workshop product: List of ideas, experiences, examples, procedures, mechanisms, organizational barriers, etc.

Program product: Technical note.

** For example, one project may be constructed to only provide fish habitat; another, only bird habitat; however, collectively, all projects will serve the system to provide the resources required.
